**GETTING THE MOST ROI
FROM YOUR EQUIPMENT**

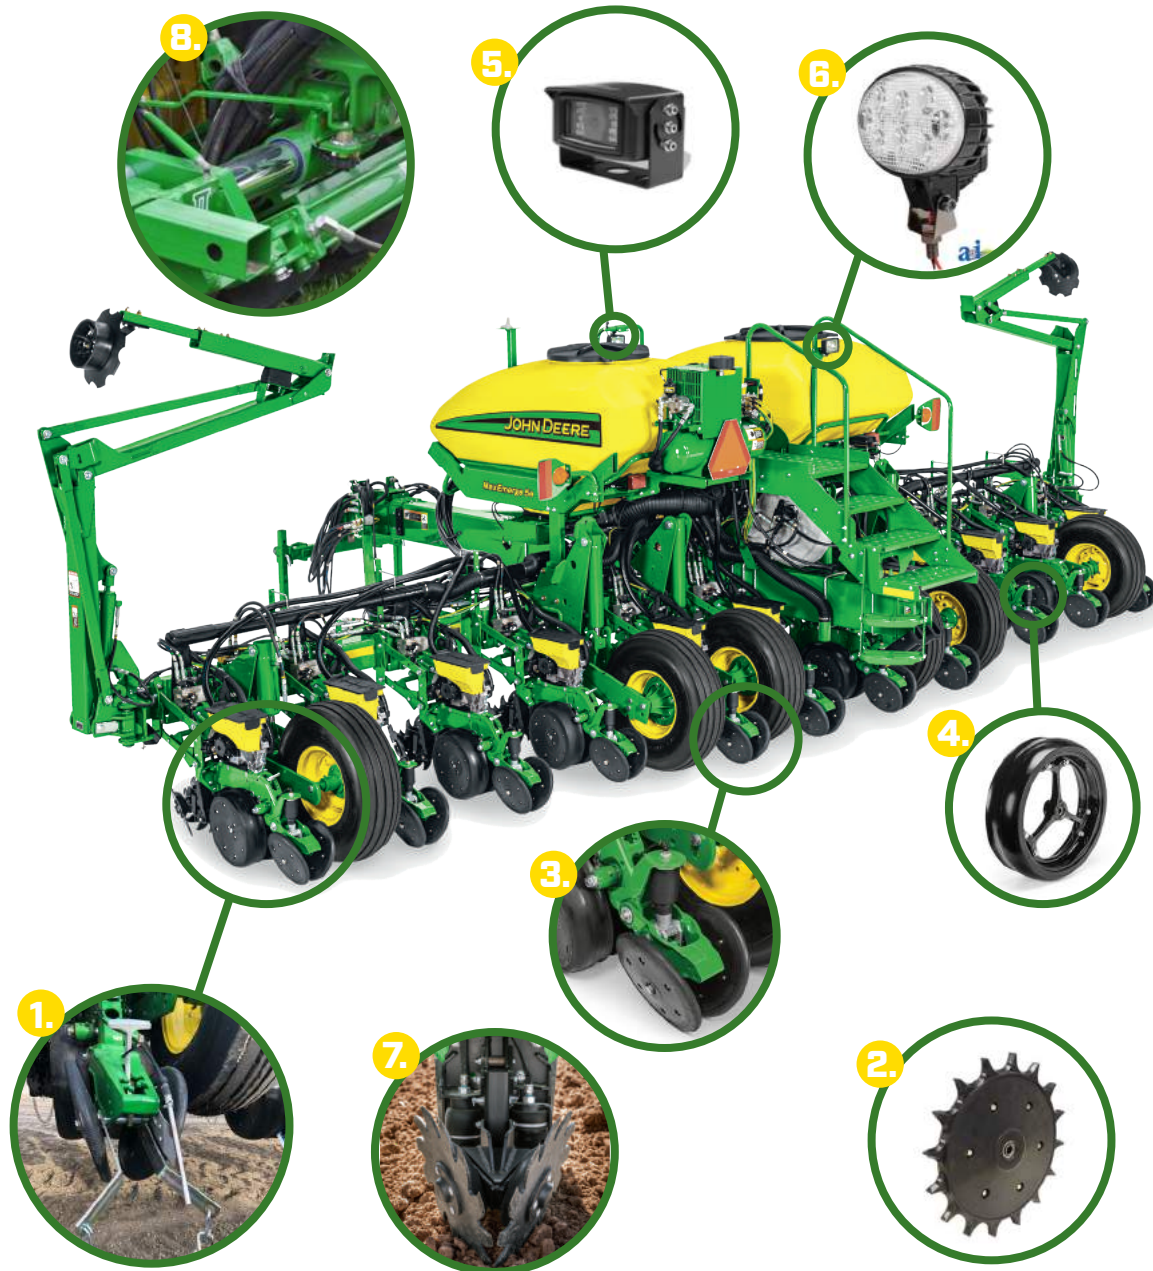

YOUR FULL-SERVICE JOHN DEERE® DEALERSHIP

At Platte Valley Equipment, we understand how important a positive customer experience is when purchasing parts from a John Deere Dealership. Our number one asset in bringing you this experience is our employees. With over 300 years of experience in our parts department, our employees are driven to your satisfaction. You have many choices in the marketplace today. We want to be a trusted advisor in your operation and want to prove this to you with every interaction you have with us. We believe in a never say no attitude to your parts request. Whether it's John Deere, or any other manufacture, we will help you find the answer to your parts request.

PLANTER ENHANCEMENTS

Effectively reinvent your planter with a variety of versatile attachments. Platte Valley Equipment can provide the expert advice and hands on ingenuity to get your planter performing at the highest efficiency possible.

1. SUREFIRE AG WITH 360 YIELD

GAIN EFFICIENCY WITH BANDED NITROGEN

Putting nitrogen where and when emerging corn plants need it is the key to maximum efficiency. UAN is locked under the soil to eliminate volatilization. Moisture moves nitrogen bands into the root zone and dilutes the solution to prevent root burn or injury.

PLACEMENT WITH NO IMPACT ON DEPTH OR CLOSING

The simplicity of a stainless steel nitrogen tube matched with an optional drag chain seals nitrogen and helps cover the seed trench. A flexible extension eliminates the risk of the chain catching on spike wheels. Drag chain #540529 **\$30**
SS Tube Part #270-1700-HD **\$32.42**

This drag chain kit is compatible with all systems EXCEPT the following:

- Original John Deere OEM 7000 & 7100 series
- Original Kinze OEM 2000 series
- Dawn M-series (Curvetines, Gaugetine, Furrow Flex, Iron M)

2. FURROW CRUISER CLOSING WHEEL

Achieve seed trench closure and break up sidewall compaction with the Furrow Cruiser Closing Wheel. The wheel works in wide range of tillage practices: minimum till, conventional, strip-till, vertical tillage, and no-till.

Furrow Cruiser Complete Assembly (2 Per Row) #JWK-16 **\$210**

Furrow Cruiser Inserts (set of 2) #JWK16 **\$130**

3. JOHN DEER PNEUMATIC CLOSING WHEELS

MAKE YOUR ADJUSTMENTS WITH A PUSH OF A BUTTON

Consistently applying the correct force at the seed trench is one of the key elements of supporting improved emergence. Studies show potential yield impact on corn from even emergence from 5% to 9%. Compatible with XP, MaxEmerge™ 5e, and ExactEmerge™ row-units.

Set of 4 #BA33555 **\$756.80**

4. JOHN DEERE SPOKED GAUGE WHEELS

The spoke gauge wheel is a solution for operators who plant in wet conditions to allow the mud and debris that get caught behind the depth gauge wheel to easily flow through the wheel and continue providing superior performance.

4.5 in. Wheels #AA86055 **\$135**

3.5 in. Wheels #AA85465 **\$135**

5. ABCAM™ CAMERA

The wired camera is a waterproof, color CCD camera with audio. The A-VSIC110 has 110 degrees of viewing angle and 32 infrared illuminators for night vision up to 32 ft. The camera has day/night sensors for automatic light adjustment. Compatible of integrating into 2630 and Gen 4 John Deere displays.

#A-VSIC110 **\$124.19 ea.**

6. LED UPGRADE

DON'T BE LEFT IN THE DARK

Work Lamp, LED, 8 – 3 Watt Cree LED Diodes, 1920 Raw Lumens ~ 1500 Effective Lumens
#A-WL956 **\$71.49 ea.**

7. EASY ADJUST ROW CLEANER

Easy Adjust row cleaner and coulter combo provides a pneumatic row tillage solution that is controlled from the seat of the tractor.

8. ACTIVE IMPLEMENT GUIDANCE SYSTEM

Active Implement Guidance automatically steers the implement onto the desired guidance line. The LAFORGE Guided Hitch is controlled by the GPS implement guidance system to automatically steer the implement to follow the guidance line.

\$6950 (Model specific additional bracket and harnesses needed)

FEATURES

- Fits John Deere 1770NT, 1775NT, 1790, 1795
- Integrates quickly and seamlessly into planter pivot
- Replaces factory John Deere planter hitch
- Use with John Deere Active Implement Guidance for sub-inch planting accuracy
- Automatically steers planter to guidance line Maintenance Free
- Up to 20 inches of hitch movement
- Benefits • Reduce planting side-hill drift
- Improve yield by reducing seedbed compaction
- Optimize seed placement relative to nutrient application
- Perfect end-rows and guess-rows
- Prevent crop damage and improve efficiency in subsequent operations
- Spraying, side-dressing, and harvesting

BALER ENHANCEMENTS

Let Platte Valley Equipment help you to maximize the workload of your baler by adding reliable, efficient attachments. Get more done in the time you have by adding attachments to improve your baler's efficiency. Create consistent bales that stay solid until feeding time with the help of Platte Valley Equipment.

1. VARIABLE CORE KIT

This kit reduces hydraulic pressure for easier bale starts in difficult conditions. The variable core kit is for balers equipped with the BaleWatch™ monitor.

BE23827 – 466, 566, 467, 567, 468, 568, 469 and 569 **\$620.**⁷⁷

2. BALE COUNTER

The bale counter keeps record of the number of bales baled.

BE22696 – 6, 7, 8 and 9 series **\$87.**¹⁵

3. BALE PUSH BAR

The bale push bar moves the bale away from the baler and eliminates the need to back up when ejecting a bale.

BE24127 – (4') 467, 468 and 469 **\$2412.**⁷⁶

BE32556 – (5') 567, 568 and 569 **\$2519.**⁷⁹

4. GATHERING WHEELS

These gathering wheels are perfect for picking up extra wide or wind scattered windrows - improving your hay-making productivity.

BE23893 – 6, 7, 8 and 9 Series (Regular and MegaTooth Pickups) **\$2490.**⁷⁴

5. BALE CURTAIN

Curtains fit only on balers with MegaWide™ pickup to deflect objects that may be thrown forward by the MegaTooth™ teeth. The curtains can be easily removed for service.

BE30004(4') – 6, 7, 8 and 9 Series **\$389**

BE30005 (5') – 6, 7, 8 and 9 Series **\$498.**⁴⁵

6. DRAWBAR SHIELD

The drawbar shield helps to prevent windrow bunching that can occur when the drawbar contacts heavy windrows.

BE32262 – 6, 7, 8 and 9 Series **\$74.**⁹²

NETWRAP SOLUTIONS

Save time, money, and reduce waste with Netwrap products from Platte Valley Equipment. Choose from a variety of Netwrap product to make the most of your silage, hay, or straw baling.

JOHN DEERE COVEREDGE™ THE BEST BALES YOU WILL EVER MAKE.

John Deere CoverEdge™ goes right over the edge of the bale and snaps into place for better protection. With the elimination of shoulders, bales are perfectly shaped for better handling, transport, and storage.

#NT-69XXL **\$317**

JOHN DEERE EDGE TO EDGE® DESIGNED TO GIVE FULL COVERAGE TO THE SURFACE OF THE BALE.

John Deere EDGE to EDGE® technology enables the net to cover the entire width of the bale, protecting the crop as well as helping to maintain the bale's shape, making handling and storage much easier. Fully covered bales also means less crop loss when handling or transporting bales.

#NT-64XXL **\$325**

FARM TUFF HEAVY DUTY NET WRAP FOR TUFF CONDITIONS

- Extra High UV for 12-Month Protection
- Great price for Premium Net Wrap
- Guaranteed Length for Every Roll
- Indicator Stripe for Quick Installation
- Highly Visible 450' End of roll warning stripe
- Works in all brands of balers

#FT647 64" x 7000 FT **\$199**

#FT648 64" x 8000 FT **\$209**

#FT677 67" x 7000 FT **\$199**

#FT678 67" x 8000 FT **\$214**

OUR NETWORK OF INTEGRATED TECHNOLOGIES

You're looking at the latest advances in technology – all fully integrated to deliver the most performance and cover more acres in your day. Everything you see here has been designed for peak efficiency and precision.

AutoTrace Vision and **AutoTrac Rowsense** are hands free guidance systems that help operators of all experience levels keep their 4 Series Sprayer on track without taking out crops or wearing out operators.

With both systems, operators can spray faster with less fatigue – especially valuable in tight application windows. Increasing sprayer speed can allow an operator to cover more acres every day. Plus, both systems dramatically reduce yield-robbing crop damage.

Applications: 4730, 4830, 4940 and all 4 Series Sprayers.

AutoTrace Vision
\$4000

AutoTrac Rowsense
\$3000

SPRAYER ENHANCEMENTS

Allow Platte Valley Equipment to improve the accuracy and efficiency of your sprayer with high quality attachments. Save money with fine-tuned parts to better control rate, pattern, and coverage of your sprayer.

1. EXACTAPPLY™ RETROFIT KITS

The ExactApply nozzle control system provides operators a solution that improves the coverage and control of spray applications due to its industry-exclusive Pulse Width Modulation (30 hertz pulsing) and automatic A/B nozzle switching from the sprayer cab. Now operators of model year 2014 and newer R4030, R4038 and R4045 machines have the same ability to precisely manage droplet size and coverage of products being applied. Starting at **\$23,000**

2. BLUE COVERAGE LED LAMP

The blue beam provides day or night illumination of nozzle spray patterns, giving you the ability to see them better during operation. Installs easily and quickly with low amp draw. #A-WL38135 **\$62.99**

3. JOHN DEERE MOBILE WEATHER STATION

Capture instantaneous, field-specific weather information from the John Deere Sprayer cab. Improve your record keeping by documenting weather conditions during both private and commercial applications. **\$3499**

4. CAB SUNSHADE

A great way to reduce glare and heat on those bright sunny days. Easy to install – no drilling needed.

Applications: 4720, 4730, 4830, 4920, 4930 and 4940 Sprayers **\$250**

5. BOOMLESS XT FENCE ROW NOZZLE

The XT nozzle introduces boomless spray technology, enabling spray to be targeted into places that conventional booms and other tips cannot reach. XT delivers a uniform spray pattern over a distance of up to 16 feet. Ideal for weed control in orchards, vineyards, forestry, pasturelands, and any other fence row operation. **\$40.64**

6. DIRECT INJECTION

Accurately inject product into the carrier flow without having to mix products in the solution tank. That means no more rinsing prior to switching products – ever. The results are easier changeover between crops, faster loading times, and fewer wasted products.

Applications: 4940, R4030, R4038 and R4045 Sprayers. Starting at **\$10,926**

7. NEW PWM NOZZLES LOW DRIFT TWIN

The Low Drift Twin includes 30° inclines for superior coverage, PWM compatible pre-orifice, and M and C droplets for coverage. **\$8.79**

LOW DRIFT MAX

The Low Drift Max includes dual pre-orifice nozzle designed to reduce drift, 60° thick pattern and 120°, spray angle for good pattern overlay and superior coverage, as well as C, VC, and EC droplets. **\$9.69**

8. EXPRESS END CAPS

These end caps help to eliminate lag time when shutting off valves. In addition to saving you money on products, they help eliminate dead space beyond the last nozzle body, improving boom hygiene.

Applications: 4630, 4700, 4710, 4720, 4730, 4830, 4920, 4930, 4940 Sprayers. #PM7433314 Starting at **\$673.38**

9. HIGH-CAPACITY TRANSFER PUMP

Powered by a field-proven Mi-T-M engine, this high performance pump has a peak suction lift of up to 25 ft. Depend on this pump to handle solid particles in suspension up to 3/8 in. diameter.

#PRFP26M – 2 in. **\$589**
#PRFP36M – 3 in. **\$799**

10. CALIBRATION GAUGE

Check liquid fertilizer, irrigation and sprinkler nozzle flow rates. Best for flow rate between 1-4 GPM.

#PM24200 **\$258**

11. RAM TABLET MOUNT

Utilize the latest technology such as the John Deere Connect Mobile app. View mapping of critical job quality information, including as-applied rates, rate deviation, spray pressure and ground speed, and receive documentation for the ExactApply™ nozzle control system for real-time visibility to estimated droplet size. **\$180**

TRACTOR ENHANCEMENTS

Improve your tractors comfort, performance and resale value with a full line of parts from Platte Valley Equipment. The variety of attachment options Platte Valley Equipment offers will get your tractor working more efficiently, day after day.

1. TRACK AND WHEEL CLEANER

Keep build up of mud and debris out of your track wheels while lengthening the life of bogie wheels.

TWC-KIT-N-Y STD Row Crop **\$200**
TWC-KIT-WN-Y Wide Rear Wheel **\$225**
TWC-KIT-W-Y Large Frame **\$250**

2. JOHN DEERE TRACTOR ACCESSORY MOUNT KIT

Mobile phones, tablets, GPS and other devices are key tools for farming today. John Deere has made it easier than ever to incorporate these tools into your cab so you can safely and securely use and store the device.

BREI0015 – Cell Phone Mount **\$64.⁹⁶**

BREI0255 – Tablet Mount **\$88**

3. COMMANDARM BRACKET

BENEFIT FROM FULLY INTEGRATED TECHNOLOGIES

The CommandARM bracket for Final Tier 4 (FT4) Tractors offers a convenient way to mount a cell phone or tablet to the CommandARM for easy use of a mobile device. This bracket is not compatible with joystick equipped tractors. CommandARM bracket includes hardware only. The Cell Phone Mount Kit (BREI0015) and Tablet Mount Kit (BREI0255) are sold separately.

BREI0147 – CommandARM Bracket **\$45.¹⁰**

4. AUTOTRAC VISION CAMERA KIT

BENEFIT FROM FULLY INTEGRATED TECHNOLOGIES

AutoTrac Vision for tractors is great for side-dress or row crop cultivating. Available for 7X30, 8x30/8x30T, 7R and 8R/8RT tractors. The system works in row spacings from 20 to 40-inch row crops in the early stages between 6 inches tall and 90% canopy. The camera detects the color difference between the soil and crop that guides the tractor between the rows. Ideal for fields experiencing drift from planter and other applications where GPS drift was an issue. Starting at **\$4730**

5. REAR WINDOW PULL DOWN SUN SHADE

7000 Series, 8000 Series, 9000 Series – REI97944 **\$171.²⁷**

7R & 8R Tractors – RE562587 **\$152.⁹⁷**

6. LANKOTA TRACTOR SINGLE POINT HOOK UPS

Any combination of 2, 4 or 6 port hose systems are compatible with almost any John Deere tractor in the field today. These connect under pressure systems has the ability to relieve high pressure build up in the implement hoses allowing hassle free connection in one easy motion saving time, money and frustration. No alterations are made to tractor SCV's, hoses or implement components for easy installation.

2 Port Connection with Quick Hitch – **\$740.²⁵**

4 Port Connection with Quick Hitch – **\$950.⁵⁰**

6 Port Connection with Quick Hitch – **\$1634.²⁰**

Note: All hoses, couplers and mounting hardware is included. Different mounting options are available for various applications.

JOHN DEERE 2510H TOOL BAR ENHANCEMENTS

Allow Platte Valley Equipment to improve the accuracy and efficiency with John Deere 2510H Tool Bar Enhancements.

TRUSET™ DOWN PRESSURE CONTROL SYSTEM

Fully integrated TruSet Tillage technology helps you increase your productivity in short tillage windows by making on-the-go depth and down-pressure adjustments from the cab – in only six seconds. Cover more acres in a day because you spend more time tilling and less time manually adjusting your implement for changing conditions from one field to the next.

#BKK10673 – \$2046

HINIKER NITRO-LERT ANHYDROUS AMMONIA KNIFE MONITOR

The Hiniker Nitro-Lert Anhydrous Knife Monitor System alerts operators to individual blocked manifold outlets, lines or knives. In-line sensors for each outlet monitor for flow variations and alert the operator to potential problems. **\$3400**

2510H 15 ROW ANHYDROUS BAR REBUILD KIT

Keep your Anhydrous Bar running at peak performance with a rebuild kit including scrapers, disks, hardware and plugs. **\$2632.³⁷**

NO-IT-ALL HOSE ORGANIZERS

No-it-alls create an easy way to keep your hydraulic circuits together. Using these organizers for the pressure and return hydraulic hose for each cylinder or any implement application makes hooking up easier and quicker! **\$15.⁹⁵**

SPECIAL OFFERS

Let the experts at Platte Valley Equipment help you take full advantage of special discounts for your operation through the next season.

EQUIPMENT MAINTENANCE

BULK OIL TANK OFFER

Receive a 180 and 120 gallon stackable oil tank for only **\$675** with a bulk oil commitment. A **30% discount**.

15% off filters February and March.

PRECISION AG

ALL IN WITH GEN 4 DISPLAYS

\$500 Off each unit when you purchase 1 to 3 displays.
\$750 Off 4 or more units.

Qualifying Trade

GreenStar 2 1800 Display
GreenStar 2 2600 Display
GreenStar 3 2630 Display
Expires April 30th, 2019.

LEVEL IT UP

\$900 Off iGrade Activation Controller 1100 for your scrapper.

SPRAYERS

SPRAYER NOZZLES

15% Off select Sprayer Nozzles.
Offer good through February 2019.

EXACT APPLY RETROFIT KITS

\$2500 Off Exact Apply Retrofit Kits.
Offer good through February 2019.

SEEDING

SEEDING INSPECTION PROGRAM

15% parts discount on Platte Valley Equipment installed parts found on an inspection. Offer expires April 1st 2019. All John Deere Seeding models qualify (Planters, Drills, Air Seeders).

PROSERIES RETROFIT KITS DRILLS AND AIR SEEDERS

Regularly priced at \$399.⁹³/row,
On sale for **\$250/row**. Offer good through February 2019.

TILLAGE

SWEEP ADAPTER

Free adapter and spring with purchase of Perma-Loc Sweep. Offer good through April 2019.

BOLT ON SWEEPS

15% Off conventional bolt-on sweeps for Field Cultivators. Offer good through April 2019.

RISK MANAGEMENT

INSPECT AND PROTECT YOUR EQUIPMENT WITH ASSURE

Platte Valley Equipment will complete equipment inspection and oil scans after customer authorization. Inspection and repairs are then completed after the customer approves the quote for the repairs.

Ask if you are eligible for an Assure or PowerGard warranty. An Assure warranty includes a **free rental** when needed if machine fails!

Platte Valley Equipment is your full-service John Deere dealership serving Eastern Nebraska. Our well-trained, professional staff is ready to provide you with world-class service and is committed to total satisfaction.
